Subadvisor: Jennison Associates LLC

Performance Summary

The Institutional Class returned 44.09% for the year ended October 31, 2024, while the Russell 1000® Growth Index returned 43.77% and the S&P 500 Index returned 38.02% during the same period.

Top contributors to relative performance included:

- Positions in technology. Accelerated spending on Artificial Intelligence (AI) applications fueled significant gains for several of the Fund's holdings including NVIDIA Corp., Broadcom, Inc., and Advanced Micro Devices, Inc.
- Positions in communication services. The top performers were Meta Platforms, Inc. and Netflix, Inc. Both companies benefited from demand growth and advertising revenue. Costco Wholesale Corp. also added to performance. The company benefited from higher demand through their pricing strategy.

Top detractors from relative performance included:

- Shares in Boeing Co. which lost value over the period. Production issues, coupled with the recent labor strike, weighed on the company's share price.

Keep in mind that the Fund's past performance shown is not a good predictor of how the Fund will perform in the future. The graph and table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or redemption of Fund shares.
